

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you to understand the nature and the risk of this Fund. You are advised to read it so you can make an informed decision about whether to invest.

ABR Dynamic Blend Equity and Volatility Fund (“Fund”) Institutional USD Class

ISIN: IE00BD0G4171

The Fund is a sub-fund of DMS UCITS Corrib Platform ICAV (“ICAV”)

OBJECTIVES AND INVESTMENT POLICY

- The investment objective of the Fund is to achieve investment returns by investing at least 80% of the NAV in futures listed or traded on one or more Recognised Markets that provide exposure to US large cap equity securities including volatility in the US equity markets.
- The Fund may also invest in cash instruments. Cash instruments include cash deposits and cash equivalents, such as short term commercial paper, certificates of deposit, treasury bills, floating rate notes and fixed or variable rate commercial paper listed or traded on one or more Recognised Markets.
- There can be no assurance that the Fund’s investments will be successful or that the investment objectives of the Fund will be achieved
- As many of the investments which the Fund will make will be in futures which are invested in on an unfunded basis, the Fund will only have a requirement to post margin with the brokers through which it makes such investments rather than pay the whole of the notional value of the derivative. As a result, the Fund is expected to retain significant levels of cash, which will be invested in cash instruments.
- As part of the management of its cash position, the Fund will make use of the Depositary’s cash sweep program, which will invest cash balances held by the Fund at the end of each Business Day into money market funds which have been selected for this purpose by the Investment Manager
- The Fund’s strategy is designed to achieve returns from favorable volatility movements in the U.S. equity markets while maintaining U.S. equity exposure to preserve positive performance during extended periods of rising markets. The Fund’s strategy is systematic and non-discretionary, meaning that it applies objective rules and not reliant on discretionary decisions of the Investment Manager, which ensures strict discipline and the removal of emotional influences from the investment decision making process.
- Shares of the Fund can be bought and sold on each Dealing Day which is a Business Day in Dublin and New York, or any other day which the Directors have determined, subject to advance notice to all shareholders in the Fund. The base currency of the Fund and the reference currency of this class is USD.
- If sufficient net income after expenses is available in the Fund, the Directors may make a single distribution to Shareholders of substantially the whole of the net income of the Fund, as attributable to each class. Dividends, if declared, will normally be declared in May of each year and will be paid within six months of the end of the annual accounting period.

RISK AND REWARD PROFILE

- The shaded area in the table above shows the Fund’s ranking based on the synthetic risk and reward indicator (SRRRI). The SRRRI suggests the relationship between risk and potential returns when investing in the Fund. The Fund has been classified as category 5 due to the nature of its investments, which include the risks listed below. This means that the purchase of units in the Fund is connected to medium risk of such fluctuations.
- Please note that category 1 does not mean a risk free investment. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Fund; the category might change in the future.
- There is no assurance that the Fund will meet its investment objective and you may lose money. The Fund’s performance will be affected by market movements but the Fund may lose money in a rising market. The Fund is neither capital guaranteed nor protected.
- Significant risk(s) for the Fund not taken into account in this indicator include the following:
- **Counterparty risk:** The counterparty to a derivative or other contractual agreement or synthetic financial product could become unable to honour its commitments to the Fund, potentially creating a partial or total loss for the Fund.
- **Currency risk:** Changes in exchange rates will affect the returns on your investment.
- **Derivatives risk:** A derivative may not perform as expected, and may multiply the gains and losses made by the Fund.
- **Liquidity risk:** In difficult market conditions, the Fund may not be able to sell a security for full value or at all. This could affect performance and could cause the Fund to defer or suspend redemptions of its shares.
- **Operational risk:** Failures at service providers could lead to disruptions of Fund operations or losses.

For more information about the risks of the Fund, please refer to the Risk Considerations section of the Prospectus and Supplement.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges are maximum figures. In certain cases you may pay less- you can find this out from your financial advisor or distributor. For more information about charges, please refer to the Fees and Expenses section of the Prospectus and Supplement.

One-off charges taken before or after you invest	
Entry charge (%)	None
Exit charge (%)	None
<i>This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out respectively.</i>	
Charges taken from the Fund over a year	
Ongoing charge (%)	1.75%
Charges taken from the Fund under certain specific conditions	
<i>This ongoing charge is calculated as a percentage of NAV and inclusive of the investment management fee as applicable.</i>	
Performance Fee (%)	None

Since the Fund was authorised by the Central Bank of Ireland on 12 October 2016, the ongoing charges figure, which would be normally based on the last year's expenses, is not available and an estimate is shown above. Ongoing charges exclude performance fees and transaction costs including third party brokerage fees and bank charges on securities transactions.

REMUNERATION

Details of the Manager's up-to-date remuneration policy, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, are available at www.dmsgovernance.com and a paper copy of such remuneration policy is available to investors free of charge upon request.

PAST PERFORMANCE

- Since the Fund was authorised by the Central Bank of Ireland on 12 October 2016 and the share class has not yet launched, there is insufficient data to provide a useful indication of past performance.

PRACTICAL INFORMATION

- Further information regarding the ICAV and Fund will be provided in English including the Prospectus, Supplement and the latest annual and half-yearly reports. This information is available free of charge at www.dmsgovernance.com
- This key investor information document describes ABR Dynamic Blend Equity and Volatility Fund, a sub-fund of DMS UCITS Corrib Platform ICAV. The Prospectus and the periodic reports are prepared for the entire ICAV.
